HOW TO FORESTALL SUFFERING

THERE was a time when there were many unemployed in Tonopah, probably the average for all towns of this size. Suffering and deprivation ensued, particularly during the winters. Charitable organizations were formed from time to time and much good was accomplished in the way of relieving temporary necessities. But while this was all very well, indeed imperatively necessary, it practically placed the recipients of gratuities in the light of paupers. Worthy people, who desire work and cannot find it, feel repugnance at eating the bread of charity.

This winter there will be fewer unemployed than probably ever before in the history of Tonopah, but there will be some and their wants will be appealing. The Bonanza would suggest a better means of providing for these people than merely furnishing them with food, clothes and shelter, which they are desirous of purchasing for themselves, if they could but earn the wherewithal.

Here is the Bonanza's plan: Let a committee meet, preferably the one that so skillfully handled the relief work a year ago. Let them perfect an organization and establish headquarters where people in need of workers and workers in need of jobs may get together. If there are needy women who are capable of doing housework, there is always an opening for them. Children are frequently wanted for light work, while "handy men" are assured of odd jobs. Let there be two forms prepared, one on which the applicant for work may register, giving full particulars as to the sort of labor he is capable of performing and his other qualifications, and let the other form be filled out by the person who could make use of an employee, even for occasional work. Publicity to the work of the committee could be given from time to time and the committee be made a sort of clearing house for employer and employee. In this way there is little likelihood of any considerable suffering from poverty during the winter.

"PROMISES MADE TO BE KEPT"

THE most refreshing thing in Mr. Wilson's speech of acceptance was the audacity of his statement: "We have proven to them (the people) that our promises are made to be kept." The language is very similar to that of the closing paragraph of the Baltimore platform. The St. Louis platform omits it, the committee having had a saving sense of humor. Mr. Wilson's candidacy itself is a flagrant example of the falsity of the boast, as he was specifically pledged to the one-term principle. But the other contemptuously broken pledges are numerous. There was a specific declaration for exemption of tolls to coastwise vessels passing through the Panama canal. Mr. Wilson was silent about the one term pledge during the campaign, but after his election and prior to his inauguration, he wrote a private letter to A. Mitchell Palmer which caused the Democratic majority of the house judiciary committee to pigeonhole a resolution complying with the platform pledge. But he openly supported the tolls pledge. As president he ordered it repealed, right or wrong, as indefensible economically and as in violation of a treaty, according to British interpretation of it.

The Baltimore platform denounced Republican extravagance and promised simplicity and economy. The first Democratic congress increased the ordinary appropriations \$117,000,000 over those of the last Republican congress. A Republican filibuster saved \$40,000,000. The appropriations of the second congress will be the highest in history, exceeding any during the civil war.

WHAT PROTECTION ARE WE GETTING?

A COYOTE killed at Stone Cabin this week was beyond doubt afflicted with hydrophobia. Others have been shot at the Moore ranch, at Nyala, and elsewhere in Nye county. There is no question that the scourge has reached this section. The menace is to human life as well as to that of livestock. The question arises: What has become of the appropriation made by Nye county for the extermination of coyotes and what portion of the government fund is expended here? There are about one hundred trappers working for the government in Humboldt county alone. If there are any operating in Nye the Bonanza would like to know where they are and what they are accomplishing. Speaking of the menace to livestock alone, the cattle and sheep men of Nye pay heavy taxes and they are deserving of protection, particularly after they have paid for it.

MUSICAL NAMES

"DON'T make fun of Meshirjete," urges the San Francisco Bulletin. "For some tens of thousands of human beings its queer letters flow together like harmonious music, spelling the most beautiful of words—home and friends."

All right. And we don't make fun, either, of Zloczow, Czartorysk, Bug, Snof, Rustchuk, Mush and Ginj. Doubtless all of them are sweeter than honey on the lips of the natives.

And anyhow, we haven't a great deal to brag of ourselves, in the matter of euphony. When a nation possesses thousands of such geographical appellations as Oskosh, Gogebic, Schneetady, Mauch, Chunk, Patchogue, Auxvasse, Yazoo, Umbazooksis, Chemquassa, bamtiock, Wahkiakum and Enumclaw, how can it have the nerve to ridicule old world names?

DUTY AND PRIVILEGE OF ALL CITIZENS

JUST a week remains for registration and the list contains only a little over two thousand names. There are probably five hundred people in the city who are entitled to the franchise who have not yet shown their intention to exercise it. Display your patriotism and good citizenship by enrolling at once. The coming election is one fraught with great meaning for the American people. The issues are of overwhelming importance. Help to decide them and decide them on the side of right and for betterment of conditions by not neglecting to register before the expiration of time.

THE STROLLER

BY L. B. (LETSON) BALLIET

For some years I have occasionally written short articles for publication in various papers under this head. Some have been intended to amuse, and some to make the readers think. Never are they intended to offend. Friendship comes from kindness, and I think I have many friends among the readers of this paper, and I hope to make more. If my views differ from yours, I grant you the right to your views just as freely as I claim the right to my own. If your politics differ from mine, you have every right to your own convictions, the same as I have to mine, and I will still be your friend, without regard to politics, religion, race, color, nationality or occupation. I shall pay for this space at advertising rates and thus be sure it will not be crowded out by more important matter.

POLITICS OR ABILITY—WHICH?

Criticism of public acts is the price a man pays for being in public, but mud slinging at a man's character and reputation is never policy. It loses more votes than it gains, because the better class of people know that a mud slinger is a man who is trying to pull some one down in order to benefit himself.

There are many taxpayers in this county who are not Republicans, but all men do not think alike, but THIS IS NO TIME TO TALK POLITICS, BUT THE DUTIES OF MAN TO MAN. The citizens of this county have cried out at the wrongs of machine control; they have struggled under the burden of high taxes that are getting higher every year, until they are now the highest in the state and will be still higher next year, to pay back the borrowed money as well as carry the expense. The higher the taxes, the higher the cost of doing business, which increases THE HIGH COST OF LIVING.

How long, O Lord, how long, will you stand it? You elected a man to office years ago; his books have never been audited, and when he got ready to leave the office he handed it over to a relative that he had imported from Colorado as a deputy. This relative also imported his bookkeeper from Arizona. WHY? Is it because he is afraid to have an interested citizen taxpayer see the books? I don't know. It seems to me that there should be men enough in Nye county for the deputy positions, who would be fully as loyal to THE NEEDS OF NYE COUNTY as disinterested imported deputies.

One-fourth of all the tax money collected last year was grabbed as salaries, for officers and deputies, to say nothing of mileage, automobile hire, travel expense, fees and commissions. The taxpayers, laboring men, and the ranchers are up in arms at the machine control. They don't want the offices handed down from relative to relative. They want to elect the man they think best qualified for the office. The people's choice—not the machine gang's choice.

The backbone of the machine is broken: Hundreds of people have come to me and said: "Mr. Balliet, you have done Nye county the greatest favor of any man in the history of the county even if you are not elected. You have explained to the people the woeful condition of the county business, as no other man ever has." These people have been Democrats, Socialists and Republicans, and both men and women.

In this regard I want to say that if the people who are struggling under

the gang control of public office vote the way they talk I will be the next assessor and sheriff of this county. I have only one chance to lose, and that is a "split vote."

Two-thirds of the citizens without regard to politics are clamoring for a change, and want to be released from the strangle hold of the machine politicians. The Socialists have a candidate—personally a congenial man. If he gets half the vote of those who want to break the machine control and I get the other half, neither one of us will be elected, and the machine will continue in power, to bleed you for salaries for imported deputies, while nothing is done for the citizens' benefit.

I have been chairman of the county central Republican committee for four years. I have studied this situation and I know whether you are drifting, in the name of Heaven don't split the vote. Rally to the standard of the man that you think will give you the best service—without regard to politics.

The Socialist candidate is a butcher who has to hire a bookkeeper for his own business while he cuts meat at the block. If he has to hire a bookkeeper in his own business he will have to hire one for your business. All he will know about the business is what his hired bookkeeper tells him. What will he do when it comes to figuring tax assessments which run out to five or six decimal places? No matter how "good a fellow" he is, if he doesn't understand the science of efficiency and economics he cannot save you much. He possibly can tell you how much it is costing you, but not how much more you are losing in expenses that are not necessary.

His Socialist deputies will be named by the executive committee of the Socialist local—not on their ability, but upon their radical loyalty to the Socialist party. Do you want radical Socialist deputies who are envious of prosperity arranging your assessments?

On the other hand, I am a mathematician. I have taught mathematics in college, and I am a graduated accountant and bookkeeper. I shall select my own deputies, on their qualifications, to obtain the best results and maximum efficiency, as I do for my own business. In fact, I will be the sheriff and assessor, and not the Democratic machine, nor the Socialist executive committee, which in itself is a machine that dictates to the office holders.

Give me a chance to show you what you are losing and I'll surprise you with the saving I'll make and the benefits I'll produce for every part of the county.

PRESIDENT REPLIES

(By Associated Press.)
 INDIANAPOLIS, Oct. 13.—President Wilson yesterday replied to the Republican charge that the Democratic party is a sectional party with the statement that "any man who revives the issue of sectionalism in this country is unworthy of the confidence of the nation."
